01
CORE

Long Short-Term Memory

Hochreiter, S. & Schmidhuber, J., 1997, Neural Computation, 9(8): 1735-1780.

I. In three sentences: what is this paper about?

II. Method + key result (what they did & what they found)

III. Key figures / equations to remember

IV. Assumptions + limitations (what to be careful about)

V. How this fits into my project (which script / component)

VI. Questions that came up while reading

Personal usefulness (for my project): 1 2 3 4 5

01
CORE

Long Short-Term Memory

Hochreiter, S. & Schmidhuber, J., 1997, Neural Computation, 9(8): 1735-1780.

VII. Detailed critique / what I would push back on

VIII. Direct quotes / passages I might cite (with page numbers)

IX. Follow-up questions or papers to read after this one

Connects to (tick other references this one relates to):

1	2	3	4	5	6	7

X. Personal notes on this paper

02
CORE

Deep learning with LSTM networks for financial market predictions

Fischer, T. & Krauss, C., 2018, Eur. J. Oper. Res., 270(2): 654-669.

I. In three sentences: what is this paper about?

II. Method + key result (what they did & what they found)
